

How to set up search panels in MyAthens

✓ Path to function: *Management > MyAthens > Panel editor*

It is possible to set up a custom search panel integrated into your chosen search engine:

- After selecting Management > MyAthens, select the Panel editor link

[Options](#) [Panel editor](#) [Preview login](#) [Preview after login](#)

- 'Add a panel +'

This page allows an organisation administrator to create custom panels for the MyAthens portal.

Publish these panels |

[Add a panel +](#)

- Select a custom search panel from the options

Custom Search Panel

Create a panel that will harness the functionality of an existing search engine

Blank RSS feed panel

Adds an RSS 1.0/2.0 news feed.

Blank web content panel

Allows you to insert content of your choice.

- Complete the form with the details relevant to your chosen search engine. If you are asking the service provider for information, you would need to find the following details
 - Search engine URL
 - Uses GET or POST
 - Required parameters and if their order is relevant
