

Accessibility

For our statement on accessibility, please see: <https://openathens.org/accessibility/>

The Voluntary Product Accessibility Template (VPAT) is a template that many use to document how accessible products are for users with disabilities. We have evaluated the accessibility of our end-user facing products, and documented their conformance with the Web Content Accessibility Guidelines (WCAG) 2.1, at level A and AA.

Our Administrator facing products (Administration Area, Reports and Publisher Dashboard) require redevelopment to become fully accessible.
