

# BrowZine and the OpenAthens Redirector

You do not have to make any custom settings in OpenAthens to support this as the Third Iron support team take care of everything at their end. All you have to do is to Email your redirector prefix to [support@thirdiron.com](mailto:support@thirdiron.com) asking them to update your authentication to OpenAthens.

To look up your redirector prefix: access the administration area as the domain administrator and navigate to the redirect link generator (Resources > Redirector link generator).

### Redirector link generator ✕

 Redirector URLs can be created by adding `https://go.openathens.net/redirector/yourdomain.com?url=` as a prefix to the target URL, or using the tool below.

?

The part you are interested in is the bit like this: <https://go.openathens.net/redirector/yourdomain.com?url=>
