

Support status of previous versions of OpenAthens LA

The [end of life of OpenAthens LA has been announced](#). Whilst you can still upgrade to the current version you are encouraged to migrate to our hosted platform - the service desk will be happy to help.

Major and minor versions are usually supported for about a year past the release of the next version (not counting maintenance versions).

The support status of all versions of LA is:

| Version | Status |
|---------|---|
| 2.4.x | Supported until March 2020 End of life |
| 2.3.x | Supported until June 2017 |
| 2.2.x | Supported until April 2015 |
| 2.1.x | Supported until August 2013 |
| 2.0.x | Supported until May 2011 |

Documentation will remain available for up to one year past end of life.

Understanding version numbers

Versions will have three dot separated numbers - X.Y.Z

X = Major version

Y = Minor version

Z = Maintenance version.

Some components may have a fourth number representing a specific build, but these numbers can usually be ignored.
