

Per page help

The pages in this section relate directly to the pages in the administration area and are organised in the same way. The help link in the admin area will usually take you to whichever one of these pages is most likely to be the one you need.

Account menu pages

Functions for adding and listing various account types

- [List accounts](#)
- [Add - Personal account](#)
- [Add - Access account](#)
- [Bulk upload](#)
 - [Bulk template](#)
 - [Submit bulk upload](#)
- [Accounts not activated](#)
- [Accounts awaiting approval](#)

Resource menu pages

Functions for managing resources, permission sets and links

- [Permission sets](#)
 - [Federated attributes](#)
- [Catalogue](#)
 - [Add and manage custom resources](#)
 - [Add and manage custom SAML resources](#)
 - [View and edit resource details](#)
